EDUCATION

Bachelor of Science in Computer Science – Game Development Track
De La Salle Lipa, Philippines
Expected Graduation: 2026
Relevant Coursework: Game Programming, Web Development, Data Structures, HCI, Mobile App Development

Senior High School
De La Salle Lipa, Philippines
Graduated: With Honors

Junior High School
Saint Bridget College, Philippines

Elementary School
Casa Del Bambino Emmanuel Montessori, Philippines
Graduated: Achiever/With Honors

PROJECTS

GAME DEVELOPMENT

- Flappy Bird Clone – Recreated the classic Flappy Bird game using Unity and C#.
- Minesweeper Clone – Built a functional Minesweeper game with proper gameplay logic and UI.
- "Where's My Water: Pipe Crisis" (Drop The Bucket Clone) – Developed a puzzle game involving water flow mechanics and level design.
- "Tricky" (Catapult Game) – Designed and implemented a catapult-based physics game in Unity.
- "Genius" (Wish Solitaire Game Jam) – Created the Wish solitaire card game with a custom mechanic and interactive UI.

WEB DEVELOPMENT

- Book Store Website – Built a fully functional website with HTML, CSS, and JavaScript.
- Portfolio Website – Developed a personal website using React to showcase projects and design work.
- To-Do List Website – Created a dynamic to-do list application with React, including CRUD functionality.
- Inventory Management System – Developed a web-based inventory system using React with real-time updates.

MOBILE APP DEVELOPMENT

- Library Management App – Collaborated on a group project to build a library system mobile app.
- Shopping App – Designed and implemented a mobile shopping app with product listings and cart functionality.
- Job Finder App – Created an app for job searching and listings using React Native.
